

SPECIFICATION

- Light Source LED Module (Mounted)
- Light Distribution Medium (M), Wide (W)
- Dimming method 0-10V
- Input Voltage 220V±6%, 240V±6% (Dedicated driver input voltage)
- Input current 0.035A (Dedicated driver input voltage, 220V input)
0.033A (Dedicated driver input voltage, 240V input)
- Power Consumption 7.0W (Included dedicated driver, 220V input)
7.2W (Included dedicated driver, 240V input)
- The power consumption is measured based on the measuring method, JIS C 8105-3.
- Dedicated Driver Constant current (50/60Hz shared)
- Fixture Input voltage 9.6V
- Fixture Input current 0.5A
- Dimming signal input current 2mA
- Weight 1.6kg ((Includes dedicated driver))

PRODUCT CODE

MMP-060KH/M-W/10B27/Z2/3

2-6. 5x10 Mounting hole
6. 5x15 Mounting hole

PARTS	MATERIAL	REMARK
1 Body A	Aluminum	Acrylic Baking Finish (Silver)
2 Body B	Stainless Steel	No surface treatment
3 Safety Wire	Stainless Steel	No surface treatment
4 Globe gasket	Silicon	Black
5 Knurled knob nut	Brass	Nickel plating
6 Arm	Brass	Acrylic Baking Finish (Matte black)
7 Lighting fixture	ADC	Acrylic Baking Finish (Matte black)
8 Glass globe	Hard glass	Transparent
9 Body gasket	Silicon	Natural
10 Safety Connector	Resin	
11 Dedicated Driver		0-10V control dimming system

ATTENTION

- Fixture is for range hood.
- Do not use in places below 0 ° C, in places with high temperature (70 ° C or more) such as sauna, in places where fire directly hits, or where hot air collects. It may cause fire due to overheating.
- Mount only on ceilings and walls. Undesignated mounting may cause electric shock or fire.
- The range of moistureproof and rainproof is only the lower side from the mounting surface. Please use the ceiling lining (box side) at normal humidity. Mount fixture to a place other than the specified location may cause electric shock due to insulation failure.
- If there is unevenness on the fixture mounting surface, be sure to fill the clearance with Body gasket with a waterproof sealing material. Mount fixture to a place other than the specified location may cause electric shock due to insulation failure.
- Danger! Do not remodel fixture.
- Keep distance of the fixture and objects 0.2m or more.
- Do not wash fixture equipment with water directly.
- Water intruding into fixture causes fire, electric shock, falling, and rust.
- Use 0-10V control dimming system (SR-2830AS-1-10V (Sold separately)) only
- Use the dedicated driver only.
- There is no sending terminal block on the dedicated driver (primary side).
- Connect input-side power wire to the dedicated driver directly.
- Use it in the range of ambient temperature 0 ° C to 35 ° C and humidity 35% to 85%.
- Please install the driver so that it can be inspected.
- Emission color and brightness would be different even within the same model.
- Do not use a radio or TV near the fixture. The unit may generate noise in the radio or TV.
- Calculate the capacity in accordance with JIS C8155 standard.
- When doing lighting, please remove Glass globe
