- ATTENTION**
- Danger! Do not remodel the fixture.
 - Use within 0°C~35°C ambient temperature range.
 - To remove the hood, remove it with the hood facing down.
 - Please use constant current driver.
 - Do not cover the fixture with a heat insulator etc.
 - Because there are variations in the LEDs, emission color and brightness would be different even within the same model.
 - Do not use a radio or TV near the fixture. The unit may generate noise in the radio or TV.
 - When connecting to the electric circuit, calculate the capacity in accordance with JIS C8155 standard.
 - Please use constant current driver.
 - There is no sending terminal block on the dedicated driver (primary side).
 - Connect input-side power wire to the dedicated driver directly.
 - Keep distance of the fixture and objects 0.2m or more.
 - Check the corresponding linear box.
 - Use 0-10V control dimming system (SR-2830AS-1-10V(Sold separately)) only.
